Brigit Strawbridge visiting the Mesolithic House (under construction) with Mark.

Qualified Professional Design Consultant with over 28 years living without ANY mains services,
spent acquiring experience in multi-disciplinary ecological design

(made my first hot water solar panel over 34 years ago).

I am experienced in real survival techniques

making fire, a clay bowl to boil water, bread from seed, using other wild plants and more…

Growing food and materials organically on a small or larger scale- window sill, garden, allotment or field.

With a life long interest in Traditional Crafts, Woodwork and Historically Accurate Reconstructions.

Green and Seasoned Woodworking, making and using other Natural materials,

Using a Pole Lathe, Carve Wood, produce oil, flax and other fibres, work Clay, Clay Oven building.

Power from the Wind, Water, Solar and other low-tec, low cost solutions.

ex Electrician & Electronics Engineer - wiring to rewinding Generators etc.

Petrol, Diesel and Stirling Engines - including marine and antique.

I am also well aware of the latest materials and technology and am well placed to advise.

I live Ecologically and Tread lightly on the Planet.

I am non political and have given talks/lectures locally at Junior Schools to National level.

I am also a R.Y.A./M.C.A. Coastal Skipper both Power and Sail.
