

Course's

Ecological, Traditional and Historic Craft… courses.

Brigit Strawbridge visiting the Mesolithic House (under construction)
with Mark (course tutor).

Travel back in time to the Mesolithic period 7,800BC just after the last Ice Age,
the time when our ancestor's were making the transition from Hunter Gatherer's to Farming and Building more
Permanent Structures…

In our Prehistoric Living Skills course you will learn about making fire, a clay bowl to boil water,
and making bread from seed, using other wild plants and more…

Other Courses including.. Green and Seasoned Woodworking, making and using other Natural materials,
Use a Pole Lathe, Mare, Carve Wood, produce oil, flax and other fibres, work Clay, and even build your own Clay Oven
at home.

Harness

Wind , Water, Solar and other low-tec, low cost solutions.

Experience how to live Ecologically and Tread lightly on the Planet.

Mark is a Qualified Professional Design Consultant with over 27 years living without ANY mains services, spent acquiring experience in multi-disciplinary ecological design (built his first hot water solar panel over 30 years ago).
