

Reports

This is a work in progress page

I applied to Envirowise for a job....

as you will see from the letter I do not fit there criteria!

as I am not IchemEng (how can they know about Enviromental Subject's with that sort of background?)

they don't reconise anything else!

also they only give basic advice and leaflet's, there is NO applied Problem Solving!

Strangely the main office is within the Harwell Complex, Oxfordshire... this has VERY tight security as there are thing's that are of a sensitive nature!

They are funded by the Goverment..... YOUR TAXES!!!!!!!!!!!!!!!!!!!!!!

other REPORT'S soon.....
